

Consent Form for Participation in the Study

Assessing Behavioural Responses to Cognitive Load Through Event Camera Pose Estimation

Consent to the Participation and Processing of My Data

I have received and reviewed the information sheet, participation details, and the attached data protection declaration for the study “Assessing Behavioural Responses to Cognitive Load Through Event Camera Pose Estimation”. I have been sufficiently informed about the nature of this study and have had the opportunity to ask questions, which have been answered to my satisfaction before continuing on site.

Voluntary Participation: I understand that my participation in this study is entirely voluntary, and I can withdraw my consent at any time without any disadvantage. Refusing to participate or withdrawing from the study will not result in any negative consequences. In the event of withdrawing my consent, my personal data will be deleted immediately or within the specified period of 12 hours. The withdrawal of my consent will not affect the lawfulness of the processing carried out up to the point of withdrawal.

Use of Data: I acknowledge that special categories of personal data (such as age and gender) will be collected as specified in the data protection declaration. Additionally, we will record joint positions using both standard and event cameras. These data will be used solely for research analysis, and only statistical findings will be released publicly. Individual data will never be disclosed publicly at any point.

Data Handling and Privacy: I agree that my personal data may be used as described in the data protection declaration. This includes making the anonymized research data publicly accessible in a suitable data archive. My personal data will only be processed within the context of this study as detailed above.

Contact for Withdrawal: No personal identifiers were collected during the study, making it impossible to associate the data with any participant and consequently preventing its removal. Additionally, once the study results are published, the data cannot be removed. Participants have the option to withdraw their consent after the debriefing, during or immediately after the experiments. They can contact Muhammad Aitsam (m.aitsam@shu.ac.uk) at any time.

By signing this form, I agree to participate in the study “Assessing Behavioural Responses to Cognitive Load Through Event Camera Pose Estimation” and consent to the processing of my personal data under the conditions outlined above.

Participant's Information:

Name in Block Capitals: _____

Place: _____ Date: _____

Signature: _____
